

ATLANTA, GA., APRIL 28, 1883.

The collapse of the strutter element at the south has been as signal as the defeat of the stalwart element at the north. Mabone, who a few years ago, was a howling brigadier, ready to renew hostilities at any time, is now a republican leader, hand-in-glove with the corrupt organization that has brought ruin upon the country; and he is determined upon carrying

The Birmingham Age seems to think that "protection" gave Alabama all the furnaces it has. There could not be a greater mistake. Alabama can make iron in competition with any part of the outside world; and if there had been in the last ten years no duty on iron there would not to-day be a furnace in blast except in Tennessee, Alabama and West Virginia. These three states can make cheaper iron than England can.

ATLANTA'S GAS.

GATE CITY GAS LIGHT COMPANY BEFORE THE CITY COUNCIL.

Colonel Hoge the Attorney for the New Gas Company Presents His Petition and Addresses the City Council in Behalf of the Company.

There was a called session of the city council yesterday afternoon. The body convened in Mayor Goodwin's office and was called to order by that official. Mayor Goodwin stated that the meeting had been called by him for the purpose of considering a petition from the Gate City Gas Light company.

The petition was then read by City Clerk Goldsmith and asked the city council for the privilege of laying pipes and mains along the various streets of Atlanta upon which the company desired to do business.

At the conclusion of the reading of the petition Colonel Hoge, attorney for the company, addressed the council urging the body to comply with the request presented.

Colonel Hoge said that the Gate City Gas Light company had been chartered by the state legislature in 1875, and that it claimed only such rights as were guaranteed to it by that charter.

As the company's attorney he felt certain that no member of the council would deny them the right to sink their pipes and mains, provided they left the streets traversed by these pipes and mains in as good a condition as they found them.

This he expressed as the company's determination to do. Colonel Hoge then spoke of the rights given the Atlanta Gas Light company, and asserted that the existence of the new company would give Atlanta a cheaper and better gas.

He then read the company's petition, and by avowing the Gate City company's intention to give Atlanta a gas fifty per cent better than she has at present, he asked the council to grant the petition.

At the conclusion of Colonel Hoge's remarks Councilman Gray arose and said: "The motion received a second."

Councilman Gray then asked for the names of the officers and directors of the Gate City Gas Light company.

Colonel Hoge responded by saying that the president was Mr. Osmond Wells, of Philadelphia; the secretary was Mr. E. E. Lewis, of New York; and the directors were Messrs. Welsh, Lawton, Sherman, Forester and Hoge.

The council then continued the discussion of the petition, and the motion received a second.

Colonel Tom Glenn, as attorney for the Atlanta Gas Light company, asked the council to grant the petition.

He stated that the city of Atlanta owned one-third interest in the Atlanta Gas Light company, and that the interest amounted to about \$20,000.

He stated that the city council would be injured by the city making an opposition to the petition.
